

Test your skills at plotting and measuring Lat/Lon coordinates...

Cut out the 1:100,000 scale ruler at the bottom of the page and use it with the map to complete the exercise.

Determine the coordinates for the points labeled **A**, **B**, and **C**.

Find the features on the map at the following coordinates:

$37^{\circ} 35' N$ $122^{\circ} 05.8' W$

$37^{\circ} 31' 30'' N$ $122^{\circ} 02' 10'' W$

$37^{\circ} 33.6' N$ $122^{\circ} 03.7' W$
