

# MapTools Wholesale Price List

## January 2016

**To purchase products at the prices listed in this price list you must be an approved reseller of MapTools products.**

Here at MapTools we understand that many of you bring value to our products by exposing them to folks who might not otherwise know about them, and that you make them available in marketplaces that we could not reach on our own, and we welcome that approach to reselling our products.

Some examples of resellers that add value include:

- Brick and Mortar Retail Stores

- Online stores attached to web sites targeting specific user groups.

- Instructors that sell or provide our products as part of their classes.

- Defense and public sector contractors specializing in linking government purchasers and contracts with products and vendors like ourselves.

We are much less interested in resellers that simply resell on large online marketplaces like Amazon or EBay. If this is what you do, and you still think we should value you as a reseller, please provide us with a detailed explanation of the value you bring to the table.

If you are an end user of large quantities of our products, you should take advantage of our existing quantity price breaks or contact us to negotiate quantity price breaks specific to your needs.

**MapTools has two simple requirements to be met by folks wishing to resell our products.**

First, we ask that you be engaged in an ongoing "value added" resale business with the intent to resell our products in the future. Please provide us with a short description of how and where you intend to resell our products.

Second, we ask that your first order total \$100 or more at wholesale pricing, which is typically 50% off of retail. There is no minimum on subsequent orders. This is a small hurdle for most serious resellers, but we keep it that way, because we really do appreciate what it takes to be a small retail store and that you are making a serious commitment just to make physical space for our products in your inventory.

We'll evaluate your request and try to let you know in a timely manner if we think you are a good fit and are approved.

Additionally Net 30 day credit terms are available upon credit approval. A credit application is needed to start the credit approval process

A catalog, and a wholesale price list, are available for download as pdf documents.

We will be happy to drop ship orders for you. But we will charge a \$5.00 per order drop ship fee.

Most of our products are available with either minimal packaging or in retail packaging in a poly bag with a hang tag and UPC bar code. Refer to the last page of this price list for more information on the packaging options. Be sure to let us know what packaging works best for you when you place an order.

Copies of this price list, our old catalog, and our credit application are available at:  
[www.MapTools.com/wholesale](http://www.MapTools.com/wholesale)

**To place an order...**

You can send a purchase order by email to [orders@maptools.com](mailto:orders@maptools.com)

You can fax a purchase order to 650-446-1430

You can call us at 650-332-7522

You can order online from our web page at [www.maptools.com](http://www.maptools.com).

Note: the web site will not offer wholesale prices nor is it aware of the packaging options. Please include a note on the last checkout page to remind us that you are a reseller and what packaging options you need.

SKU	Description	Pkg	Retail	Wholesale

## Packaging Options

The Pkg column lists the packaging options that are available. There is no price difference between the various packaging options. Please chose the option that works best for your sales environment while also trying to minimize the waste. The first code listed is the default packaging. If you want something other than the default, please add a slash and the pkg code letter. (i.e. UTMGuide/R)

### R - Retail Packaging

Each product is individually packed. Typically this is in a polyethylene bag with a stapled tag that can hang from a point-of-sale rack. The products will have a UPC barcode. Map Rulers and Ruler Sets are packaged in a vinyl pouch, with a hang tag and UPC bar code. Products not manufactured by MapTools will be individually packed, able to hang on a POS rack and have a UPC barcode. But they may be in a blister pack, poly shell or something else.

### C - Carded

Each product is stuck to a card with product information and a UPC bar code. There is no way to hang these from a POS rack.

### P - Pouch

Map Rulers get packaged in a vinyl pouch with an instruction sheet. If you need the UPC bar code or hang tag order the Retail packaging.

### B - Bulk

Just the product, no other packaging. We often shrink wrap bulk products into bundles of 25.
